INTRODUCTION

Founded in 1999, FARE Labs Private Limited is a leading laboratory of India. It is based in the heart of Gurugram near IFFCO Chowk and is promoted by Mr. Dwijendra Mathur and Mr. Chandra Shekhar Joshi, a team of Chemical Engineers with a combined industry work experience of over 60 years. FARE Labs has relentlessly pursued scientific excellence and leadership and is considered as one of the leading laboratory in India.

ACCREDITATIONS, RECOGNITIONS & CERTIFICATIONS:

FARE Labs Private Limited is an accredited laboratory as per ISO/IEC 17025:2017 in the field of Testing (Chemical, Biological, Radiological and Mechanical Disciplines) and Calibration (Thermal, Mechanical, Electro-technical & Fluid Flow Disciplines). FARE Labs also has accreditation as per ISO/IEC 17043:2010 and is a Proficiency Testing Provider (PTP) in the field of Testing (Chemical & Biological) as well as Calibration (Thermal & Mechanical). The laboratory is recognized by APEDA, AGMARK, Tea Board and IOPEPC through Integrated Accreditation Scheme of NABL India. Further, FARE Labs has FSSAI recognition for Food Testing.

FARE Labs has conducted a number of PTs in the field of both Testing and Calibration since ISO/IEC 17043:2010 in 2018. In an effort to extend the services to accredited laboratories and those seeking accreditation as per ISO/IEC 17025:2017, FARE Labs desires to expand its PT scope and has therefore prepared an exhaustive PT Calendar 2022 (Testing & Calibration) covering wide range of products and matrices. The PT Calendar 2022 covers the accredited scope as well as the proposed scope for extension in the year 2022.

Proficiency Testing Programme ensures the quality and validity of test results and thus, supports sustainable business growth. It is important not only to participate in the PTs but to perform well in terms of z-scores.

Participation in Proficiency Testing Programme has following advantages and benefits:

- Ensuring the quality of analytical results, enabling laboratories to monitor and improve performance over time
- Providing a mechanism for quality assurance and demonstration of satisfactory technical competency
- Identifying testing or measurement problems
- Comparing methods and procedures
- Improving performance
- Instilling confidence in staff, management and external users of laboratory services
- Comparing operator capabilities
- Determining method precision and accuracy
- Satisfying regulators and accreditation bodies
- Providing laboratories with additional risk management

The dates for a PT Round initiation will be intimated as soon as sufficient number of participants (8 - 10) in a particular PT will be received. Subsequently, the dates for the submission of results and PT Report release will be communicated to all the participants.

Information for PT Registration:

1. Participants are requested to register themselves for PT participation by sending us mail with filled in "PT Registration Form" along with the respective Participation Fees in advance.
2. The payments made should also include the Shipping Charges as mentioned and 18% GST as per government notification.
3. PT Reports will be circulated to participants in the form of soft copies (pdf format) only.
4. Participants from India and overseas can contact us on ptprovider@farelabs.com (for Testing Disciplines)
